**Commenting on the company's performance in Q2 FY22, Mr. Jayendra Patel, Vice Chairman & Managing Director, Arman Financial Services said,** "Q2 FY22 had been a remarkable quarter both from macro as well as from the company's point of view and was marked by sheer determination of humans to overcome unforeseen challenges. Substantial decrease in COVID 19 cases and pick up in vaccination drive led to faster unlocking across geographies.

The signs of revival in rural economy was quite evident, which assisted us in disbursing ₹ 266 crores during this quarter. Overall collection efficiency improved further during the quarter and picked up from 89% in June to 92% in September. Higher collection efficiency was aided by improvement in repayment capacity of our customers and their tendency to bounce back faster. Collection efficiency in the post covid loan book disbursed since September 2020 is 99%. Going ahead collection efficiencies are expected to further improve and reach pre-covid levels by the end of third quarter. In line with the continued focus on collections, the company has further invested in strengthening its collection team on the ground.

Our cautious approach of lending during uncertain times has helped us in managing our loan book, registering a growth of 29% YoY. Having said that, the company continues its focus on the quality of loan book with tightened credit assessment screenings. To fuel the company's future growth and enhance its customer reach, we have planned expansion in our branch network from 250 branches as on September 21 to 291 branches by March 22. The company has already initiated recruitment process for the branch expansion. The total capex for the same will be very minimal as the company works on an asset light business model.

Asset quality continues to remain steady with Net NPA at about 1.11%. Company has created adequate provisions over the time to deal with two waves of the Pandemic and hopefully withstand any further uncertainties. Our balance sheet continues to remain strong with adequate liquidity and makes us well-positioned and agile to achieve growth over the medium to long term. The company's liquidity position is comfortable with ₹ 146.7 crore in cash/bank balance, liquid investments, and undrawn CC limits. ALM continues to remain positive which has been our inherent strength over period of time.

The company is pleased to share that despite strong headwinds on the past 6 quarters due to Covid, our robust balance sheet and prudent lending practices have been acknowledged by 'Acuite Ratings & Research Limited' and is reflected in their assigned credit rating to Arman Financial Services and its Micro Finance subsidiary Namra Finance Limited with rating of '**ACUITE A-'** (read as **ACUITE A minus**) with 'Stable' outlook.

Arman over the period has faced many challenges from external environment in form of regulatory changes, demonetisation and Covid and every time, we have managed to emerge stronger. Our focus will be on scaling up disbursements in a calibrated manner going ahead to fuel our growth.
